

Master copy of this form resides on Q-pulse. Copies should be printed off as required.

A routine request form can be used in place of this form but must be clearly marked - 'Additional investigation required, samples already sent' (or similar).

RSCH:

Within routine hours: complete this form and send to laboratory.

Do not bleep the on-call BMS for supplementary investigations.

Complete this form and send to Pathology reception (air tube number 4152).

PRH:

Within routine hours: complete this form and send to laboratory.

Outside routine hours: please complete and send this form to Pathology but also bleep the on-call Biochemistry/Haematology BMS (6102/6103).

Other notes:

Additional tests can rarely be performed on samples more than 24 hours old and many tests need to be completed on much fresher samples. Addition of tests depends on the laboratory holding a suitable sample of sufficient volume. Repeat sampling should be considered as an alternative to adding tests

All details to be completed.
